

FISCAL NOTE

SB 180 - HB 438

February 2, 2001

SUMMARY OF BILL: Prohibits post-secondary institutions from using the social security number of students, faculty, and staff as identification numbers. Allows such institutions to use the individual's social security number for purposes specifically authorized or required by law or in compliance with any federal law that may regulate the institution's collection or use of social security numbers and protect the privacy rights of faculty, staff, or students.

ESTIMATED FISCAL IMPACT:

Increase State Expenditures - Exceeds \$1,000,000 One-Time

This estimate is based on the following major components associated with changing the current system using social security numbers to another identifier. These costs include:

- Reissuance of student ID cards for 130,000 students (many cards have bar codes or electronic stripes rather than the social security number printed on the ID).
- Changes to system processing using ID codes (e.g. library, security entry systems such as used in labs, parking, bookstores, cafeterias, etc.).
- Computer programming changes (changes to computer systems, human resource systems, financial systems, advising systems, etc.) and online forms, etc.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.
